

## QUALITY POLICY

OMCM operates in the automotive sector with advanced skills in:

***“Cold stamping, stretch bending, roll forming and milling of metallic materials to customer specifications.”***

Our goal is to meet and exceed customers' expectations, ensuring excellent products and services that comply with applicable contractual, regulatory and technical requirements.

### Vision and Values

OMCM considers people, technology and processes to be fundamental in ensuring business success. We place the following values at the centre:

- **Collaboration and mutual respect:** We promote a positive and inclusive working environment.
- **Professionalism and responsibility:** We support individual and collective growth through continuous training.
- **Innovation and sustainability:** We are committed to integrating advanced technological solutions and environmentally friendly processes in all our operations.

### Corporate Strategy

OMCM acts as a reference partner in the automotive sector through:

1. **Expansion and diversification:**
  - Expanding the customer portfolio beyond the traditional market by exploring new segments and related sectors.
  - Integrating new technologies to increase efficiency and automation in production processes.
2. **Innovation and targeted investment:**
  - Adopt industrial 4.0 solutions to improve traceability, quality and production flexibility.
  - Investing in state-of-the-art machinery to ensure high quality standards and increased competitiveness.
3. **Strategic collaboration:**
  - Strengthening relationships with qualified suppliers, establishing partnerships based on reliability, innovation and added value.
  - Building a collaborative ecosystem with specialised partners to offer complete solutions and finished products to customers.
4. **Sustainable management:**
  - Reduce environmental impact through the adoption of sustainable practices, in line with ISO 14001 requirements.

- Monitor and optimise resource consumption, promoting energy efficiency and the use of recyclable materials.

### **Commitments to the Customer**

Customer satisfaction is our primary goal. To achieve it:

- We listen carefully to customer needs and propose innovative solutions to meet them.
- We apply strict quality controls at every stage of the production process, ensuring reliability, precision and safety.
- We promote a proactive approach to problem solving, ensuring that our proposals are consistent with the principles of operational excellence and sustainability.

### **Fundamental Corporate Values**

OMCM is committed to respecting and pursuing the following values:

- **Safety:** We protect health and safety at work by integrating solutions designed to ensure safe working conditions for our employees and customers.
- **Quality:** We offer products and services that meet the highest quality standards, complying with IATF 16949 requirements and applicable regulations.
- **Integrity and ethics:** We conduct our activities with the highest level of fairness and transparency.
- **Sustainability:** We implement responsible practices to reduce the environmental impact of our activities and promote sustainable industrial development.
- **Growth and innovation:** We invest in people, skills and technology to ensure continuous development and increased competitiveness.

### **Continuous Improvement**

Pursuing continuous improvement is our growth engine. Through an integrated management system compliant with IATF 16949:

- We continuously monitor company performance through key indicators (KPIs).
- We identify opportunities for optimisation in production and management processes.
- We involve all employees in the achievement of company goals and the promotion of an innovation-oriented culture.

OMCM Srl is committed to consolidating the trust of its customers and suppliers, creating value and supporting mutual growth while fully respecting the environment and applicable regulations.
